

Planner

POSITION

This is a full-time term position until December 31st 2018, based in St. Stephen, NB. The average work week will be 35 hours, but this may vary with assignments. The position is open immediately but start time is flexible.

POSITION DESCRIPTION

This entry-level planning position will focus on land use planning in small town and rural environments. The successful applicant will also work on plan amendments, updating existing municipal/rural plans, background research, and other planning projects as assigned.

QUALIFICATIONS

- Completed or finishing university degree in Urban/Regional Planning from an accredited institution.
- Membership or eligibility of membership in the Canadian Institute of Planners.

SKILLS/EXPERIENCE

- Excellent written and verbal skills for report presentation and delivery.
- Demonstrated ability to exercise tact and good judgment.
- Must be able to attend meetings outside regular hours.
- Be comfortable working with all members of the community.
- Experience with projects in a small town & rural environment a plus.

PAY

Compensation will be commensurate with experience.

WHO WE ARE

The Southwest New Brunswick Service Commission is dedicated to providing effective and efficient planning services to this historic, border, and archipelago region of approximately 30,000 inhabitants. This region encompasses has eight municipalities and nineteen local service districts. It has been host to greater tourism and aquaculture development and in the process of developing more regional-level services.
